**RE: Iowa and Vermont Improvement Project
Project Introduction**

Dear Resident:

This letter is to inform you that the Village is in the process of completing design for the upcoming Iowa and Vermont Improvement Project. During this time, you may see survey crews periodically working in the area. Construction is tentatively expected to take place within the next 12-18 months. Other related construction projects in the area are expected to take place beforehand and must be completed first to allow the Iowa and Vermont project to proceed as planned.

This project consists of improvements on North Iowa Avenue from Vermont Street to Plymouth Street and West Vermont Street from Iowa Avenue to Wisconsin Avenue. The project includes the installation of a new water main. Some selective street improvements are also included. General information as well as periodic updates on the project can be found on the dedicated webpage located on the Village website: <https://www.invillapark.com/1088/Iowa-and-Vermont-Improvement-Project>

In addition to the website, the Village uses a notification service called CodeRED to provide project information and updates, including notices about road closures, water shutoffs, driveway access restrictions, etc. These updates are provided in a variety of ways, including email, text messages, and the CodeRED mobile app. If you are interested in signing up for CodeRED please use the QR code below or follow the link to complete the process: <https://arcg.is/fiiHG>

If you have any questions or would like additional information, please do not hesitate to contact the engineering division by email at engineering@invillapark.com or by phone at (630) 834-8505 between the hours of 7:30 a.m. to 4:00 p.m.
